Summary

MERN Stack Developer skilled in building responsive and scalable web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in developing RESTful APIs, JWT authentication, database integration, and full-stack applications. Strong team leader with experience organizing hackathons, technical events, and extracurricular activities, with excellent collaboration, problem-solving, and project coordination skills.

Education

Technocrats Institute of Technology

B.Tech in Computer Science and Engineering - Artificial Intelligence

Aug. 2023 – May 2027

Bhopal, Madhya Pradesh

Govt. Model Higher Secondary School

Senior Secondary (Class 12) MPBSE

July 2022– March 2023

Satna, Madhya Pradesh

Govt. Model Higher Secondary School

Higher Secondary (Class 10) MPBSE

July 2020 – March 2021

Satna, Madhya Pradesh

Skills

Programming: Java, JavaScript, C++,Python

Backend Development: Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware, API Integration

Frontend: React.js, HTML, CSS

Databases: MongoDB, PostgreSQL, MySQL

Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA

Projects

Appointy - Doctor Appointment Platform | MongoDB, Express.js, React.js, Node.js, JWT

2026

- Developed a full-stack MERN healthcare platform enabling patients to search doctors, book appointments, manage profiles, and make online payments.
- Implemented role-based authentication for patients, doctors, and administrators using JWT, with dedicated dashboards for appointment and profile management.
- Built RESTful APIs with Node.js and Express.js, integrated MongoDB for data management, and implemented Razorpay payment integration for secure online transactions.

SmartBudget | MongoDB, Express.js, React.js, Node.js, JWT

2025

- Developed a full-stack MERN web application for expense tracking, income management, budgeting, and savings goal management.
- Implemented RESTful APIs using Node.js and Express.js with MongoDB Atlas for persistent and scalable data management.
- Integrated JWT-based authentication and secure user profile management with protected API routes.
- Built category-based budgeting, recurring expense tracking, income goals, and savings progress monitoring features.
- Designed a responsive React.js interface with Axios and React Router for seamless navigation and API communication.

Achievements & Leadership

- **Hackathon Organizer:** Organized and coordinated college-level hackathons, managing participants, technical activities, and event execution.
- **Technical Event Coordinator:** Organized multiple coding and technical events, promoting collaborative problem-solving and student participation.
- **Sports Event Coordinator:** Managed college sports activities, including scheduling, participant coordination, and event operations.
- **Leadership & Team Management:** Led student teams during technical and extracurricular events, coordinating tasks and ensuring successful event execution.
